Subject : London Borough of Southwark: Aylesbury Estate Phase 1b/1c Compulsory Purchase Order - Demolition of Buildings

Dear Mr Jones,

**London Borough of Southwark: Aylesbury Estate Phase 1b/1c Compulsory Purchase Order.**

Please see the attached answer to a question I put to Southwark's cabinet on 22 October 2015. On behalf of objectors, I would be grateful if you would:

(1) draw to the attention of the Secretary of State the intention of the acquiring authority to prejudice the outcome of the Inquiry by demolishing, or permitting the demolition of, buildings on the Order Lands, in as much as such demolition would be (a) prejudicial to the Secretary of State's consideration of the alternative put forward on behalf of objectors at the Inquiry, namely refurbishment; and (b) deprive the objectors of their rights to have their case properly heard and decided upon; and

(2) advise what action is going to be taken by the Secretary of State in order to avoid prejudicing his consideration of mine and the objectors' case, and generally to achieve fairness and proper process?

I would be grateful for an urgent response to my email as the council are currently carrying out works on the Order Lands, and one important block on the Order Lands may become vacant soon.

Regards

Beverley Robinson
